c
After Shopify records the refusal
which sandboxed pixels still sent ad requests?
declares a purpose the visitor refused
declares only purposes the choice left allowed
declares no purpose (no choice can gate it)
GPC: Shopify set 'sale of data: no' (1,354 stores)
declares sale of data
0 of 1,354
declares only purposes GPC leaves allowed
111 of 1,354
declares no purpose
191 of 1,354
Decline: Shopify recorded 'marketing: no' (196 stores)
kept sending (same page or unload beacon)
32 of 196
new sandbox declaring a refused purpose
0 of 196
declares only purposes Decline left allowed
13 of 196
declares no purpose

first sandbox start minus consent write (s)
'no': 525 of 535 third-party 'marketing' sandboxes started first,
291 before Shopify's consent script was requested; ringed: the 2 loads
whose first sandbox started after the 'no'. 'Yes': all 342 after.
